DUTCH POTTERY CASE.

New York, Jan. 6 .- The celebrated New York, Jan. 5.—The celebrated Dutch pottery case of George Borgfeldt & Co., will be decided in the near future, it is now believed. The distinctions between English and Dutch gone into at some

The Borgfeldt company, it is said, bought its earthenware mainly of two manufacturers in Holland and the Amermanufacturers in Holland and the American Potters claimed that the firm paid 50 per cent less for the merchandise than their competitors. The Borgfeldt people protested against such valuation on the ground that potters could get equally favorable prices if they bought in as large quantities.

OLD PEOPLE CONSTANT SUFFERERS

Most old people are great sufferers in Winter. They IN WINTER are seldom free from pains or ailments of some description, because they are not as able to withstand the severity of the climate, with its damp, changing weather, as are their younger, more vigorous companions. Cold weather starts the old nches and pains; they suffer with chilly sensations, cold extremities, poor appetite and digestion, nervousness, sleeplessness and other affictions peculiar to old age. With advancing years the strength and vitality of the system begin to decline. The heart action is weak and irregular, the blood becomes thin and sluggish in its circulation, and often some old blood taint that has lain dormant in the system for years begins to manffest itself. A wart or pimple becomes a troublesome sore or ulcer, skin diseases break out, or the slight rheumatic pains felt in younger days now cause sleep less nights and hours of agony. There is no reason why old age should not be healthy and free from disease if the blood is kept pure and the system frong, and this can be done with S. S. S. It is a medicine that is especially dapted to old people, because it is made entirely of roots, herbs and barks, selected for their purifying, healing and building-up properties, and is very
